### **Meadow Brook Golf Club**

Reading, MA

## **Profile**

- 125 year old private country club
- Family amenities: golf, pool, tennis, paddle tennis
- Men's, women's, junior leagues
- No on-course comfort stations
- No septic or sewer on golf course

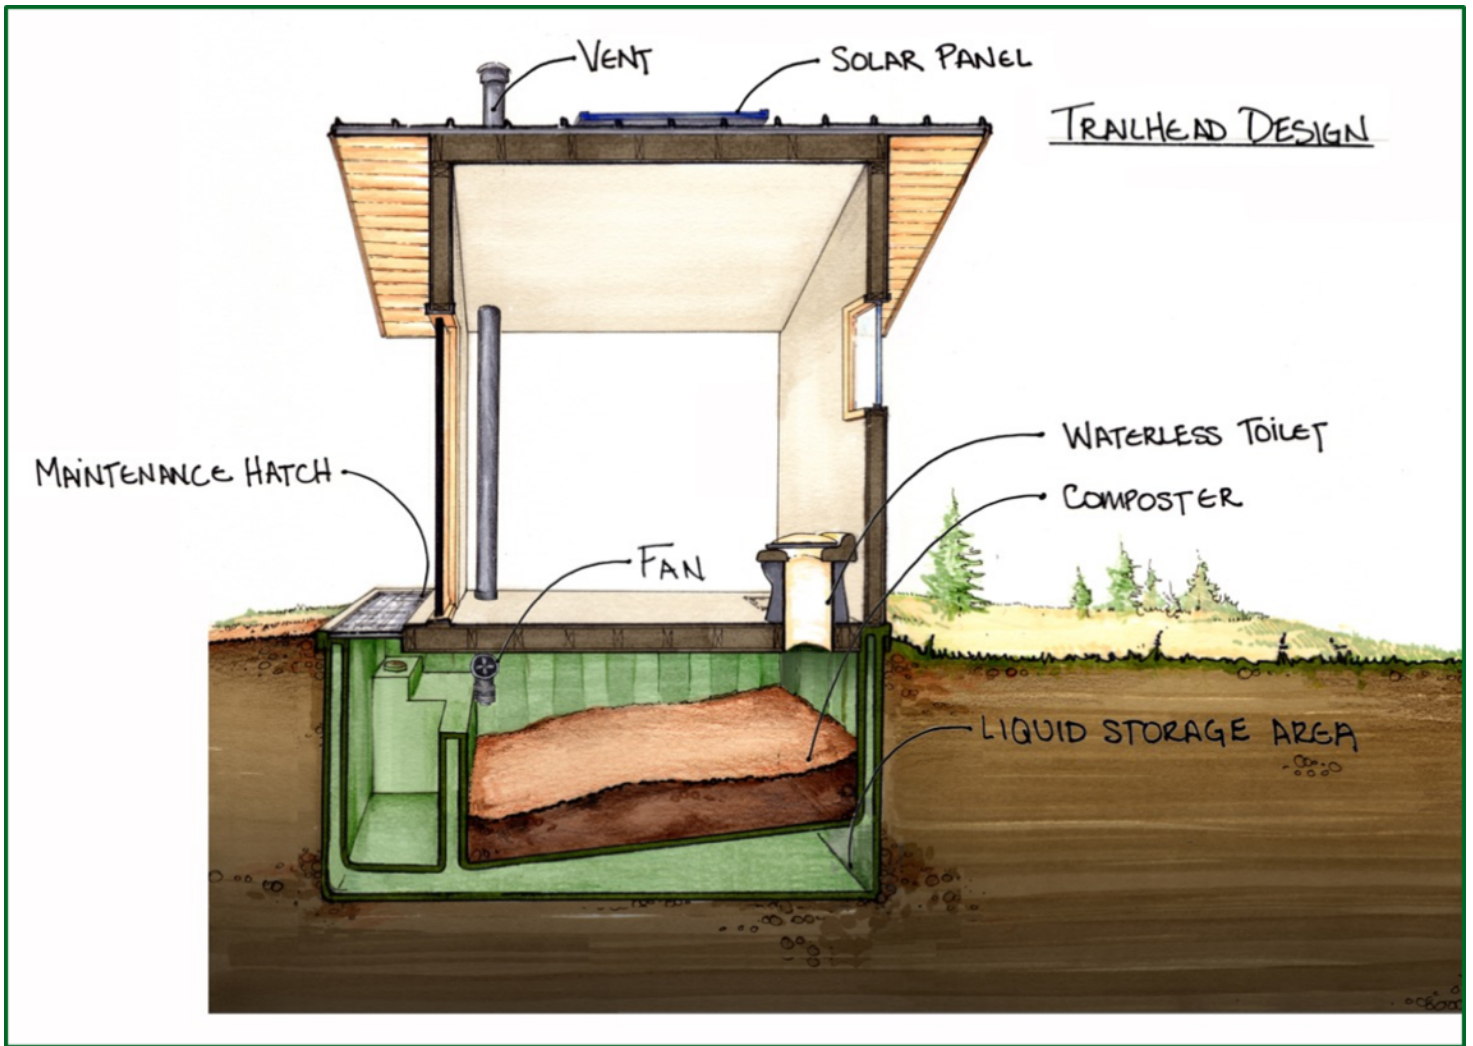

## **Challenge**

- Provide sustainable, safe, and sanitary restrooms
- Preserve greens and fairways
- Eliminate sewage and wastewater discharge
- Maintain upscale image of club

## **Solution**

- Model C-11 buildings are ADA compliant and solar powered
- Customized exterior paint
- Waterless, self-contained systems are zero discharge
- Hand sanitizer instead of sinks
- Eliminated sewage altogether
- Designed to save over 35,000 gallons of water per year
- Site disturbance contained to footprint of restroom building
- Installed and operational within one day

### *All Clivus systems are NSF Standard 41 Tested*

The Clivus Model C-11 trailhead restroom is a heavy duty building with a self-contained composting waste treatment system. There is no discharge of waste or pollution, site disturbance is limited to the footprint of the building, and the ventilation can be operated with solar power if necessary.

These units are all ADA accessible and can be placed in remote areas.
